ARTURO KING E CO., ABERDENO.

AL LETTORE.

La vendita rapida dell' ultima Edizione di quest' opera è la prova assai certa che la Lingua Italiana, poco conosciuta altre volte, è oggidi vie più stimata, e studiata più generalmente. Ma oltre questa prova, ce n'e ancora un' altra, vale a dire: che il libro fù gradito al bisogno del Pubblico. Mosso da questo pensiero, l' Editore fù stimolato, ad intraprendere questa Nuova Edizione, che, com' egli spera, gioverà al Lettore.

Non si crede necessario di citare alla lunga varj miglioramenti nel libro presente, basta tuttavia a dire, che si ha presa ogni cura di correggere tutti gli errori dell' ultima Edizione, d' accentare con diligenza tutte le parole, cosa necessaria alla buona pronunzia della Lingua Italiana; e per facilitar al Lettore lo studio degli autori Italiani antichi e moderni, si ha introdotti e spiegati molti idiomi. Se a questo si aggiunga che oltre i suddetti vantagi il valore di questo libro fù molto ridotto, si verrà senza dubbio, che questa nuova Edizione porta due vantaggi eminenti: il prezzo basso e l' efficienza.

Nella parte Grammaticale si ha fatte le regole così concise e perspicaci come lo spazio lo permetteva; e per facilitar vie più lo studio della lingua, si è permesso alcuni cangiamenti nelle parti del discorso; al tempo stesso si ha diretta l' attenzione del Lettore ai tre tempi fondamentali da' quali tutti gli altri si formano, e come l' accentuare nei verbi sia alquanto difficile ai principianti, si ha presa ogni cura di por

l' accento sulle proprie sillabe. Alla fine, il Lettore deve por mente che per buon leggere la Lingua Italiana ciascuna lettera nel mezzo ovvero alla fine delle parole deve pronunciarsi con chiarezza e precisione, a meno che, due o tre ne formino un dittongo, cosa, che la prima parte Grammaticale spiega chiaramente.

Se dunque le fatiche e la cura dell' Editore hanno contribuito a promuovere l' acquisto delle due lingue che ora si usano communemente nell' Europa, se ne crederà di gran lunga ricompensato
